Summary

Dedicated and results-driven Software Engineer with strong problem-solving skills and a passion for technology. Seeking an opportunity in a dynamic and innovative organization where I can apply my technical expertise, contribute to high-quality software solutions, and continuously enhance my professional skills while delivering value to the organization.

Work Experience

Modern Web & App Development Training 2025 – Present
Saylani Mass IT Training Program

Frontend:

- Built responsive, mobile-first web interfaces using HTML5, CSS3, and JavaScript, ensuring smooth cross-device compatibility
- Developed dynamic, component-based user interfaces with React.js, improving code reusability and reducing development time
- Styled and structured layouts using Bootstrap and Tailwind CSS for faster, consistent, and visually clean designs
- Completed end-to-end frontend development – from UI structuring to fully responsive styling – across multiple real-world project modules

Backend:

- Integrated Supabase for authentication, real-time data handling, and backend services
- Worked with MongoDB for database design, schema structuring, and data storage/management
- Designed and implemented RESTful APIs, including GET, POST, PUT, and DELETE endpoints, to support full CRUD operations

Mid-Level SQA Engineer 6 Months
7CTech

- Worked on company product-based web and mobile applications
- Performed manual testing of web and mobile applications (frontend, backend, Android/iOS) to find bugs and ensure proper functionality
- Performed API and basic database testing with different scenarios and validations
- Created and executed test cases and reported bugs

Jr. SQA Engineer 1 Year 6 Months
Stallyons Technology

- Conducted manual testing for website and mobile applications
- Tested website frontend and its functionality
- Performed API testing to some extent
- Created test cases for website functionality
- Tested mobile apps for both frontend and functionality

Web Developer and WordPress Developer (Remote Internship)
Grow With Code

- Worked on basic WordPress website setup using the Astra theme, learning to customize layouts and improve design aesthetics
- Built a to-do list web app using HTML, CSS, and JavaScript
- Developed a basic calculator app
- Designed a simple landing page showcasing layout and styling skills
- Created a portfolio using HTML, CSS, and basic JS
- Developed a calculator for basic math operations with HTML, CSS, and JS

Python Development (Remote Internship)
TechnoHacksEduTech

- Developed a calculator for basic arithmetic operations
- Designed a Tic Tac Toe game for two players
- Built a temperature converter between Fahrenheit and Celsius
- Developed a music player with playlist management

Java Programming (Remote Internship)
CodSoft

- Created a number guessing game with user interaction and feedback
- Designed a student grade calculator for automated grading
- Developed an ATM interface with deposit, withdrawal, and balance check
- Built a course registration system for student enrollments
- Implemented a quiz app with a timer and score tracking

Education

Bachelors in Software Engineering 2020 – 2024
Sir Syed University of Engineering and Technology

Intermediate (Pre-Engineering) 2018 – 2020
PECHS College, Board of Intermediate Education Karachi

Secondary Education 2013 – 2018
Al-Badar School, Board of Secondary Education Karachi

Projects

Software Test Automation on E-commerce

- Automated unit test case of signup
- Automated integration test of payments

VR Based Pilgrimage Experience (Final Year Project)

- Led the development and design of an immersive VR-based pilgrimage experience
- Integrated interactive features and guided tours within the VR experience, improving educational value
- Managed project timelines and resources, ensuring successful completion

Skills

Programming & Development: Python, Java, HTML, CSS, JavaScript, TypeScript, React, Supabase
Software Testing: Manual Testing, Automation Testing, API Testing, SQL, MySQL, Test Case Design
Tools: Git GitHub, MS Office
Other: Full Stack Development, Software Development

Communication and Interpersonal Skills

- Strong communication and interpersonal skills
- Effective team player with the ability to contribute collaboratively to project success
- Self-motivated, responsible, and capable of working independently
- Adaptable to dynamic, challenging, and fast-paced environments
